**Re: Notice regarding Significantly Viewed Stations**

As you may know, the Satellite Home Viewer Act, as amended most recently by the Satellite Television Extension and Reauthorization Act of 2010 (STELA), allows satellite operators to retransmit television broadcast stations in areas where such stations are “significantly viewed.” STELA also requires satellite operators to provide certain notices to stations in local markets reserving the right to import significantly viewed stations into their local markets. Satellite operators must provide such notice at least 60 days prior to the date on which a station must make a carriage election (in this case, August 2, 2011). See 47 C.F.R. § 76.66(d)(5)(i)(B)-(C).

Accordingly, DIRECTV hereby provides notice that it reserves the right to retransmit any station or stations affiliated with the same network as your station into any community or communities in your designated market area in which such station or stations are classified as “significantly viewed” by the Federal Communications Commission, as set forth in the list maintained by the Media Bureau and located at <http://transition.fcc.gov/mb/>, as that list may be updated from time to time. For your convenience, we have attached Exhibit A to this letter a list of such stations and communities that we have compiled internally. In the event of any conflict between the Media Bureau’s list and Exhibit A, however, the Media Bureau’s List shall govern.

Should you have any questions concerning this notice, please contact
